

The Small GTPase RAC1/CED-10 Is Essential in Maintaining  
Dopaminergic Neuron Function and Survival Against alpha-  
Synuclein-Induced Toxicity (vol 55, pg 7533, 2018)

Hanna Kim et al.

distribution and reproduction in any medium or format, as long as you give appropriate credit to the original author(s) and the source, provide a link to the Creative Commons license and indicate if changes were made.

Also the name of one of the author was misspelled. With this, the author would like to correct it from “**Sangib Guha**” to “**Sanjib Guha**” as presented above.

Funding information was edited to read “This work was supported by the following grants: Instituto de Salud Carlos III through the project (PI15/01255), co-funded by European Union (ERDF/ESF, “investing in your future”; Spanish Ministry of Economy...”.

The original article was corrected.
